**FOR IMMEDIATE RELEASE****ELLINGTON FINANCIAL LLC REPORTS ESTIMATED  
BOOK VALUE PER SHARE AS OF OCTOBER 31, 2010****Company Also Announces Third Quarter Earnings Conference Call**

NEW YORK, NOVEMBER 5, 2010 – Ellington Financial LLC (NYSE: EFC) (“Ellington Financial” or the “Company”) today announced that its estimated book value per common share as of October 31, 2010, was \$24.59, or \$24.03 on a diluted basis. These estimates include the dilutive effect of the Company’s initial public offering that closed on October 14, 2010. These estimates are subject to change upon completion of the Company’s month-end valuation procedures relating to its investment positions, and any such change could be material. For month end reports of its estimated book value per common share, the Company’s valuation procedures are generally less comprehensive than the valuation procedures employed for the Company’s quarterly and year-end financial statements, as the Company does not necessarily solicit third party valuations on substantially all of its assets, nor do the Company’s registered independent public accountants generally perform the types of reviews or audits that they do for the Company’s quarterly or annual financial statements. It is possible that, if the Company were to undertake a more comprehensive valuation analysis and/or obtain a review or audit from its accountants for its month-end report, it could determine that its book value per common share as of October 31, 2010 differs materially from the estimate set forth above. There can be no assurance that the Company’s estimated book value per common share as of October 31, 2010 is indicative of what the Company’s results are likely to be for the three month period ending December 31, 2010 or in future periods.
