Ellington Financial Declares Common Dividend and Announces Estimated Book Value Per Common Share as of November 30, 2020

OLD GREENWICH, Conn., December 7, 2020—Ellington Financial Inc. (NYSE: EFC) (the "Company") today announced that its Board of Directors has declared a monthly dividend of \$0.10 per common share, payable on January 25, 2021 to stockholders of record as of December 31, 2020.

The Company also announced its estimated book value per common share of \$16.98 as of November 30, 2020. This estimate includes the effect of the previously announced monthly dividend of \$0.10 per common share, payable on December 28, 2020 to holders of record on November 30, 2020, with an ex-dividend date of November 27, 2020.

Cautionary Statements

Estimated book value per common share is subject to change upon completion of the Company's month-end and quarter-end valuation procedures relating to its investment positions, and any such change could be material (particularly in light of the significant volatility, lack of pricing transparency, and market dislocations that have been caused by the novel coronavirus (COVID-19) pandemic, and associated responses to the pandemic). There can be no assurance that the Company's estimated book value per common share as of November 30, 2020 is indicative of what the Company's results are likely to be for the three-month period or year ending December 31, 2020 or in future periods, and the Company undertakes no obligation to update or revise its estimated book value per common share prior to issuance of financial statements for such period. Estimated book value per common share, which is the responsibility of the Company's management, was prepared by the Company's management and is based upon a number of assumptions, including, without limitation, the fair market value of the Company's assets, which may not be reflective of such assets' liquidation value, particularly in light of the significant volatility, lack of pricing transparency, and market dislocations discussed above. Additional adjustments may be identified and could result in material changes to the Company's estimated book value per common share. The Company's independent registered public accounting firm has not audited, reviewed, compiled or performed any procedures with respect to the Company's estimated book value per common share.

The Company's results can fluctuate from month to month and from quarter to quarter depending on a variety of factors, some of which are beyond the Company's control and/or are difficult to predict, including, without limitation, changes in interest rates and the market value of the Company's securities, changes in mortgage default rates and prepayment rates, the Company's ability to borrow to finance its assets, changes in government regulations affecting the Company's business, the Company's ability to maintain its exclusion from registration under the Investment Company Act of 1940, the Company's ability to maintain its qualification as a real estate investment trust, or "REIT," and other changes in market conditions and economic trends, including changes resulting from the economic effects related to the COVID-19 pandemic, and associated responses to the pandemic.
